

GEM will be Exhibiting AT ASEG-PESA 2013!

GEM Systems Inc. will be exhibiting at ASEG-PESA's 23rd International Geophysical Conference & Exhibition in Melbourne, Australia. Come visit stand #51 from August 11th - 14th at the Melbourne Convention & Exhibition Centre to learn about the advanced technologies GEM has to offer.

GEM will be exhibiting alongside Modern Mag, a company based out of Australia who conducts geophysical surveys for the mining, mineral exploration, geotechnical, and archaeological industries. Modern Mag represents GEM in the country of Australia, selling and supporting GEM's magnetometers, gradiometers, and VLF equipment. Come visit us at stand #51!

At stand #51, you will meet knowledgeable staff members offering information on magnetometers, gradiometers, and magnetic sensors for Earth Science, Geophysics, and other applications. We will be offering information for all of your geophysics needs, including GEM's advanced quantum GSM-19G Overhauser Gradiometer and GSMP-35 Potassium Magnetometer/Gradiometer/Airborne systems.

GEM will also be giving away a NEW Samsung Galaxy Tab 2! Drop by stand #51, talk to our friendly booth staff, and drop off your business card to win! Winners will be drawn on **Wednesday, August 14th at 17:00** at stand #51. Winners do not need to be present for the drawing, and will be contacted via email that day.

If you would like more information on exhibitions that GEM will be attending, or have questions/comments about any of our products, please send an email to shannon.kadoski@gemsys.ca

See you in Melbourne!

Our World is **Magnetic.**
