

Thank You!

GEM
SYSTEMS
ADVANCED MAGNETOMETERS

It was a pleasure to speak with you at the **ASEG-PESA** Conference & Exhibition in Melbourne, and to present our company as an expert supplier of magnetometers, gradiometers, and magnetic sensors which are reliable, easy-to-use, and accurate for projects in many different environments. Ground, Airborne, Base Station, UAV, and UXO units are available with the highest data quality and specifications in the market.

With more than two decades in the research and development of equipment for geophysical exploration, **GEM** is also known for our service and support - featuring knowledgeable magnetics professionals and our industry-leading two-year warranty program.

ModernMag was alongside **GEM** this year, offering expertise on our magnetometers, as well as sales and service support in Australia. For further information on **ModernMag**, please visit their website at www.modernmagnetic.com

We encourage you to visit our website at www.gemsys.ca for further information on the products that we have to offer, and to direct your questions to us at info@gemsys.ca. We look forward to discussing your future geophysical requirements, and thank you again for your attention and interest in **GEM**.

**Congratulations to Dave T. from
Northbridge, Australia for winning
the Samsung Galaxy Tab 2!**
